ISO 13485

CE 0197

The P9 is a new color Doppler ultrasound diagnostic system from Sonocape. Ergonomically small and flexible in appearance while intrinsically strong in performance, the P9 expands the variety of advanced imaging functions to easily meet the needs of increasingly diversified clinical applications.

Efficiency in Streamlined Workflow

P9 inherits a high-end ultrasonic platform and is combined with a variety of workflow-enhanced technologies, such as user defined presets, intelligent storage, and one-key optimization, to create a stable working environment and a convenient operation experience for clinical diagnosis.

Auto IMT

Auto Trace

User-defined Operation

Quick Preset

One-key Optimization

Quick Storage and Transfer

Comfort in Ingenious Design

 Large size monitor and sensitive touch screen

 Built-in sliding keyboard

 Cable management holder

 Intuitive control panel and scientific division

 Palm rest design

 Large capacity built-in battery
